

Happy and Blessed Father's Day

*Father... For toiling hands and anxious heart
And tired eyes and feet,
That knew cold night, day's rough start,
And each illness' frightening beat –*

*We hail thee: DAD!
With thoughtless word and careless thought,
As often as we meet;
With casual smile, as tho' 'twere bought
With pennies' handful fleet;
We greet thee: DAD!*

*In understanding joy and pain,
As sharer of each other:
Partner thru all with might and main:
A shield of love for Mother!
We THANK thee: DAD!*
